NEITHER CANDIDATE PLEASING TO BENSON

[Republican A. P. Leased Wire]
DENVER, Oct. 4.—President Wilson and Charles Hughes were sharply criticized by Allen L. Benson, socialist candidate for president, in his address here tonight. The statement, attributed to President Wilson, that failure to re-elect him meant war, was characterized by the speaker as "an insult to the intelligence of the American people."

HERE'S CHANCE TO VISIT MEXICO

EL PASO, Tex., Oct. 4.—Now, while the American lion and the Mexican lamb are doing their best to find an excuse for cuddling up together, will be a splendid time for those who would like to witness the performance to go down into Mexico for the purpose.

The low rates of fare made by the railroads of the country for those who contemplate visiting El Paso when the \$10,000,000 Elephant Butte dam is formally dedicated on Oct. 14 and to attend the sessions of the International Irrigation and International Farm Congress, both of which will meet in El Paso immediately following the dedication of the dam, will afford an occasion for those who have become interested in Mexico to make trips into that land of mystery and interest for sightseeing purposes and for study of conditions, under favorable circumstances.

The de facto government of Mexico is particularly anxious that Americans, as many of them are possible, visit the country and get first hand knowledge of existing conditions and for that reason will exert every effort to the end that those who pass into the interior be safeguarded in every possible manner.

The trips will be well worth while from every point of view to those who have a disposition to study a country which differs so widely in language, manners and customs as does Mexico, yet which is a country with which the United States must have such close relations in the future.

Not since the history of either nation began has there been such an interest of each in the other as there is now and the opportunity afforded by the meeting of the irrigation congress in this city October 10 for Americans to see and learn something about the republic to the southward may never again be offered.

During the ten days of the International Soil Exposition which will be held at the time of the congress, visitors will be regaled upon Mexican dishes in the Mexican restaurants with which the Mexican village on the exposition grounds will abound and with Mexican music discoursed by the Mexican bands which will be sent to the exposition by the de facto government of Mexico for the purpose of giving Americans who come from distances north of the border an idea of the culture of the inhabitants of the republic to the southward and disabuse the minds of those visitors of the notion that the Mexicans follow wholly to the business of shedding each other's blood.

CRAIG COMMENDS EXTENSION OF THE FIRE ORDINANCE

At a meeting of the city commission yesterday, a bid for the paving of sections of First and Monroe St. was presented and opened. There was no other business. Following the usual course in conformity to the law, the matter was ordered to lie over for five days, that the property owners may designate the kind of paving desired.

In the report of Manager Craig, which was ordered filed, the following recommendations were made: That an ordinance governing storage of gasoline, etc. in garages, should be extended to include paint shops, cleaning establishments, machine shops and paint stores, that they should be required to provide a box of sand and a shovel in some readily accessible place; that fire extinguishers should be required and self-closing doors for oil and gas tanks; that mercantile establishments should be required to provide metal or metal-lined receptacles with tight fitting for waste paper.

Regarding the ordinance prohibiting roof signs, the manager said that a great deal of opposition to the removal of the present signs had developed, and he suggested that an ordinance be made in which signs might be erected under certain restrictions. This also went over.

The manager recommended a definite understanding against the parking of vehicles within fifty feet of a street corner. There being some doubt as to the effect of the present traffic ordinance, this recommendation was referred to the city attorney.

Notice of the award of the contract to the Cal-Arizona Paving Company, for paving second avenue, between Filmore and Van Buren, was approved and ordered published. Similar action was taken on the contract to the same company for paving Second avenue, from Filmore to Roosevelt and for McKinley and Filmore streets, from First to Second avenue.

Ordinances defining and approving plans for the improvement of Monroe street between First and Second avenue and Third avenue between Roosevelt and Portland streets, were read the second time.

Yesterday was the time set for hearing protests against the extent

ELKS TO HOLD BIG "BLOWOUT" TONIGHT

The last detail has been attended to and everything is in readiness for the big blowout at the Elks club tonight. The entertainment committee which was organized by H. B. Cassidy, Joe Haldiman and Herman Lewkowicz, has been busy for the past three weeks in an endeavor to show the boys a big time. "Just like we used to have in the old days," and from what can be gathered from the few things that have leaked out, the old days won't be in it.

All members are urged to be on hand at eight o'clock sharp and they are promised entertainment as long as they want to stay. This is the first meeting night of the fall season and the officers of the lodge promise a very interesting meeting in advance of the social session.

The committee also wishes to extend a hearty invitation to all visiting Elks who might be in the city, and urge them to be present and meet the members of 325.

of the paving districts on South Central avenue, but by agreement between attorneys the matter was allowed to go over. The commission adjourned until next Wednesday.

HALM HEAD OF CLEAN UP GANG

A joint meeting of the Phoenix Fire Prevention Association and the committee appointed by the city, and known as the "City Clean-up Day Committee," was held at the chamber of commerce yesterday afternoon at four o'clock. Those present were: Dr. Norton, Robert Craig and W. L. Pinney, of the city clean-up committee; C. C. Thompson, state superintendent of insurance; H. T. Mann, building inspector; R. E. Whitlock, of the Arizona Equitable Rating Office; Harry Welch, of the chamber of commerce and A. H. Matthews, the committee appointed by the Phoenix Fire Prevention Association.

At this meeting it was decided that, instead of the city having its clean-up day on October 14, it would join with the Fire Prevention Association and have the clean-up day on October 9, which is the national fire prevention day recognized in practically every state in the union.

Arthur G. Halm, secretary Arizona Fire Insurance Company, was unanimously elected by the city clean-up day committee, the chamber of commerce and Manufacturers' Association, to have charge of the squads who will see that the city is properly cleaned up for which purpose a committee of twenty men will be appointed tomorrow. These gentlemen will all be vested with the proper authority to enforce the cleaning up of any premises where the owner is not willing to do so voluntarily. It would therefore be well for the people to enter into the spirit of this occasion, and these gentlemen will gladly point out where defects exist and advise as to the best methods of taking care of any difficulties which may present themselves.

The city will furnish the wagon for carrying away all rubbish, and everyone is called upon to join in
